

# OMORI STUDENT DORMITORY REGULATIONS

## 1: Purpose

The Student Housing Rules (or Guide) provide a set of minimum standards designed to create an environment conducive to study while ensuring that all resident students are able to live together in a spirit of goodwill and harmony. The student Housing Rules also seek to promote cross-cultural understanding and personal development through engagement with resident students from other cultures.

The student Housing Rules include the Hours of Operation, which are designed to ensure efficient operation of the facility; Rules of Conduct, which are designed to ensure the safety of resident students; and Restrictions, which are designed to promote proper behavior and fair usage of the facility.

You will find that these general rules of conduct and principles of consideration for others will prove useful in the near future, once you finish your studies and enter the workforce.

You are expected to act in a responsible manner and abide by the rules and requirements set out below, in order to ensure the enjoyment of this facility by all resident students.
