

## 【Foreign Students&The 63rd Japan- America Student Conference Communication Event!】

Hello. My name is Satoko Okutani from the 63rd Japan-America Student Conference.[JASC]

I'd like to promote an event for foreign students through this e-mail.

JASC will be holding a communication event with foreign students on May 2nd. During this event, we will be doing some icebreaking[Introduction, Fun games] and discussion sessions with Japanese university students.

The main purpose for this event is to promote cross-cultural understanding, as well as for Japanese students to practice speaking in English, last but not least, for foreign students and Japanese students to make friends outside their usual community.

### What is JASC?

The Japan-America Student conference is the most historical international student conference, which will be holding its conference for the 63rd time this year in Japan. A total of 72 Japanese and American students gather for approximately a month and discuss various topics surrounding our world today in round tables.
