経済学部 tradition を受け継いで すぐれた研究を行い、有為の人材を輩出

明治期以来、義塾の理財科、旧制経済学研究科は、わが国の経済学の発展に重要な役割を果たしてきました。

その伝統を受け継ぎ、昭和26(1951)年に修士課程、昭和28(1953)年に博士課程を開設しました。

以来、経済学部・経済学研究科は経済学説史研究、新古典派理論、ケインズ理論、計量経済学、財政学、経済史研究、経済政策・社会経済思想史など、経済学のほとんど全ての分野にわたって、日本を代表する優れた研究を行い、有為の人材を輩出しています。平成19(2007)年より他大学との単位交換制度を導入、また平成30(2018)年よりブランダイス大学とダブルディグリープログラムを開始するなど、教育体制の一層の充実を図っています。

Inheriting the tradition of the former Department of Economics, the Faculty and Graduate School of Economics continue to conduct excellent research and develop promising graduates

Since the Meiji Period (1868-1912), the Department of Economics has made significant contributions to the development of Japan's study of economics. Inheriting this tradition, the Graduate School of Economics began a master's programme in 1951 and a doctoral programme in 1953. Since then, the Graduate School of Economics has been conducting leading research and developing talented graduates across almost all fields of economics, including the history of economic thought, neoclassical and Keynesian theories, econometrics, public finance, economic history, economic and social policy, and the history of social and economic thought. The Graduate School of Economics is making efforts to further enhance its educational system, through such initiatives as introducing credit transfer systems with other universities in 2007 and starting double degree programmes with Brandeis International Business School from 2018.

「実学の精神」を継承し、 現代社会の進歩と変革への方向を洞察

昭和32(1957)年に経済学部から分離独立した商学部を母体に、昭和36(1961)年に開設。

理論と実証を通じてグローバル化した現代社会を把握し、その進歩と変革への方向を洞察していくという基本理念に基づき、理論を重視するとともに演習科目を充実させ、理論を現実問題に適用して解決策を導く教育をします。修士課程では研究教育者とともに、企業経営や社会システムのリーダーとなるスペシャリストを育成。後期博士課程では、広い視野と専門的知識の両立をめざし、グローバルに活躍できる人材の育成に力を注ぎます。

Inheriting the spirit of “practical learning,” students gain insight on the direction of progress and innovation in modern society.

The Graduate School of Business and Commerce was founded in 1961 from the Faculty of Business and Commerce, which became independent of the Faculty of Economics in 1957. Theoretical and empirical perspective on the world of modern industry is imperative for anyone who pursues a professional career. The scope of the programme embraces a wide aspect of business activities, such as management, accounting, marketing, and applied and industrial economics. We endeavor to grasp the essence of our current global industrial society through theory, corroborative evidence and insight, and assess the trends of progress and change. “Professionals, with the mind of a researcher,” are the kind of leaders we would like to send out into the world to play key roles in the governance of the economic community.

—破壊的創造性でイノベーションを 創出するグローバルリーダー 「メディア・イノベータ」を育成する。

先端的なデジタル技術によって加速するデジタルトランスフォーメーションが社会にパラダイムシフトを起こしています。この急激な変動を乗り越え、新しい社会を生み出すには創造性が不可欠であり、経済活動をはじめとする社会の重要な仕組みを変える活動すなわちイノベーションが求められています。メディアデザイン研究科(KMD)は従来からの問題解決型ではなく、新しい価値を社会に提案するイノベーションによって新規に市場を創り出すための研究と教育を行っています。KMDでは、ゼロ(アイデア)からイノベーションを創造し、それが市場に提供されて社会的インパクトを生み出すまでの、一連の展開を実践していきます。学術的な貢献を超え、新しい製品やサービスなどのビジネス展開や標準化、制度改正の提言など、グローバルな創造社会へのインパクトを目標としています。

—Develop media innovators that innovate through disruptive creativity.

Digital transformations accelerating through emerging technologies are causing a paradigm shift in society.
Creativity is essential if we are to capitalize on these rapid changes to build a new society.
This entails activities that transform key frameworks for economic and other social activities.
In a word, it's innovation. Rather than taking the conventional problem-solving approach, research and education at KMD uses innovation to propose new value to society and to create new markets.
The focus of KMD activities is on innovating out of zero, bringing those innovations to market, and creating social impact.
In addition to contributing to academic inquiry, our objective is to impact the global creative society by developing new products, services and businesses, formulating new standards, and recommending changes to systems and institutions.

CEMS卒業生からのメッセージ

Alumni Voices

■ 派遣生の声 ■ 受入生の声

様 々な価値観を持つ多国籍の学生と共に、すべてを英語で学ぶというCEMSのような経験は、日本の大学院に通う学生にはあまり機会がありません。各留学先で類似するテーマに対して様々な角度から議論がなされ、多様な考え方に触れることにより、柔軟に物事を捉えられるようになりました。CEMSは世界でとても評価が高く、私にとっては国外の就職市場への門戸を開く重要な契機となりました。現在、CEMSを通して出会った企業に新卒で就職し、日本国外で働いています。CEMSは日本で学びながら世界に進出する一歩を踏み出させてくれる素晴らしいプログラムです。

滝爪琢也 Takuya TAKIZUME
(Keio CEMS Student, 2014/2015)

My CEMS MIM term abroad at Keio exceeded all expectations. The business project was a complete cultural immersion experience into a Japanese corporation and the Japanese work culture, which greatly contributed to my development in management and cross-cultural skills.

João DOS SANTOS
(Warsaw School of Economics, 2013/2014)

I think that practical experience in the real international business world is the most valuable thing that the CEMS MIM Programme provides us. Studying textbooks may not be enough. Actively taking the chances that CEMS offers and making full use of them will absolutely benefit our future careers.

李雨嘉 Yujia LI
(Tsinghua SEM, 2016/2017)

I fully recommend CEMS to all students at Keio University. CEMS became a unique network on amazing individuals with a great global reach. I personally love the way how global corporations and the Universities work together and how at any moment the students are the center of attention.

Boris Friedrich MILKOWSKI
(Keio CEMS Student, 2013/2014)

You will be part of an exclusive group of visionary global nomads. If you are looking for a corporate job, CEMS is the right platform to connect you to excellent companies.

Ahmad MIARI
(University of Economics, Prague, 2015/2016)

Coming to Keio really opened up my eyes to career opportunities beyond my home country. It showed me how great an international career could be and that I am equipped for such a path. I felt like it allowed me to fully experience all the benefits and challenges of going on an exchange and adjusting to a new culture. Learning how other people live, think, what they value, and how they conduct business has put things into perspective for me. It showed me what I value in my home country, but was also a great inspiration to see how things could be done differently.

Nina SCHMID
(University of St.Gallen, 2016/2017)

CEMSの良い点は、世界中に仲間を作ることができる点です。CEMSコミュニティのメンバーは卒業後も強い繋がりを持っています。この繋がりはソーシャルライフにとどまらずキャリアにも繋がるものです。CEMSコミュニティの一員になることは、CEMSプログラムに参加する大きなメリットの一つだと思います。CEMSで過ごす1年間はこれまで味わったことのない素晴らしいものになるはずです。学問そして世界中の素晴らしい仲間との出会いなど、充実した1年を過ごしてください。

保坂賢吾 Kengo HOSAKA
(Keio CEMS Student, 2016/2017)

The CEMS network is extremely strong. It doesn't matter which country you live in, you will always find a local CEMS community you can connect with. The programme also has an excellent reputation among the corporate partners making it easier to start your career with one of them. You will graduate from the programme with a truly global mindset.

Pascal LANGE
(NOVA School of Business and Economics,
2014/2015)

This one year programme has been a precious experience that I will carry with me forever, not only because I improved my knowledge and skills, but also because of the people I met along the way. During the CEMS Programme, you will definitely have a lot of culture shock, but it will be good inspiration and help you with your personal improvement and growth.

梁小萌 Xiaomeng LIANG
(Keio CEMS Student, 2016/2017)

We had a great CEMS club which held regular activities, and that helped create a strong bond among the "CEMSies."

Nicholas LEUNG
(HEC Paris, 2016/2017)

CEMSに参加することにより、価値観がすごく変わりました。二つの大学に通い、それぞれの国で四ヶ月間ずつ生活し、貴重な体験を得ることができました。世界各国からのCEMSies(CEMS生)とのコミュニケーションやグループワークを経験して、最初は相手が理解できないあるいは自分の意見が伝えられなくて悩んでいましたが、だんだん違う価値観を持つ人を認め、付き合いを楽しめるようになりました。派遣先の学校で現地の学生と一緒にハイレベルな授業を履修し試験を受け、自分をすごく磨くことができたと思います。CEMSに参加して自分に対する認識や、世界の広さと多様性を深く感じました。

梁穎琦 Yingqi LIANG
(Keio CEMS Student, 2016/2017)

The CEMS MIM Programme offers both opportunities to learn the fundamentals of business in prominent grad schools all over the world, and the chance to experience the local culture while you are there. For me, the experience of going hunting in a Finnish forest is an unforgettable memory.

立川仁美 Hitomi TACHIKAWA
(Keio CEMS Student, 2017/2018)

There were a couple of challenges I faced during my semester abroad in Japan. Despite being very demanding I would rather call them "opportunities to learn more." This is because the CEMS MIM Programme helped me develop both intellectually and personally. They helped me become a better, more conscious person. Most of the challenges were caused by cultural differences. There were challenges with communication, with being organized, and of course intellectual challenges during courses and Skill Seminars. All of these challenges/opportunities made my semester at Keio even more fulfilling.

Karolina SALEK
(Warsaw School of Economics, 2017/2018)

Get involved. Find out what CEMS can offer you. The range is incredibly broad starting from joining the local CEMS clubs up to being a Student Board rep for your home school. There are a lot of chances to meet and get to know people from all over the world.

Constantin HUESKER
(ESADE Business School, 2016/2017)

CEMSは本当に魅力的なプログラムです。世界中のトップレベルのビジネススクールへの交換留学やパートナー企業を通して、グローバル化している世界に対応できる最高の教育と経験が得られます。また、このプログラムに参加することでCEMSコミュニティの一員となり、新しい人との出会いを通じて、より早いスピードで成長することができます。CEMSコミュニティは、大変貴重な「財産」です。この機会を逃さないよう応募してください。

Take your career worldwide

The internationally-esteemed CEMS MIM Programme offers its students many opportunities to make meaningful connections with corporations, including CEMS Corporate Partners. Over the years, CEMS has also earned the trust of international corporations across the globe in addition to that of its Corporate Partners, leading to many CEMS alumni currently enjoying successful careers in global companies. CEMS offers the following career support for CEMS students and alumni.

●CEMS Career Forum

Every year around November, CEMS holds its biggest career support event. At the CEMS Career Forum, CEMS Corporate Partners from around the world enter booths at which current students and alumni have the opportunity to talk directly with company representatives. Many students and alumni successfully secure job interviews at this event.

●Regional Career Event

Regional career events are held several times a year with CEMS Corporate Partners and other companies.

●Online CVs

There is an online system where CEMS students and alumni can register and manage their CVs. Online CVs are made available to relevant CEMS Corporate Partners, which are then able to contact the students and alumni directly.

●Online Bulletin Board

An online bulletin board for CEMS Corporate Partners to post job listings is also available exclusively for CEMS students and alumni.

You should take advantage of all the opportunities that the CEMS Programme offers you. My advice would be to do your block seminar at a school other than your home university, and definitely attend the CEMS Career Forum and the other forums, and network with fellow "CEMSies," CEMS alumni, and Corporate Partners.
