

VISIT TO YOKOHAMA MUSEUM OF ART

Keio Welcome Net would like to invite you of viewing “**Cai Guo-Qiang:There and Back Again**” exhibition, held at the Yokohama Museum of Art.

This is a first large-scale solo exhibition by the internationally acclaimed New York based Chinese born contemporary artist, **Cai Guo-Qiang 蔡國強**.

This exhibition features new large-scale two-dimensional works commissioned especially for this exhibition. The new drawings will be created in Cai's signature medium, igniting gunpowder on Japanese paper. The subject will be selected through the artist's research on the history and culture of the city of Yokohama. The exhibition also includes *Head On*, of Cai's signature works, which will be shown for the first time in Japan.

Taking inspiration from the title of Tao Yuanming(陶淵明)'s famous poem “The Return(「歸去來」),” this solo exhibition intends a return to the place of origin where Cai's artistic path first took shape. It also aims to introduce his current practice, including a new work based on the history of Yokohama.

Curator of the Museum will give you a **short lecture before seeing the exhibition**.

After the program, you can also see the permanent collection.
