

Submission photo standards

Photographs to be submitted for each application are as follows.

Also, please refer to the [Examples of suitable photos] and [Examples of inappropriate photos] below and submit photos that meet the standards.

In addition, if the application is made using an inappropriate photo that does not meet the specified standards, we will ask you to retake the photo.

- 1. Photo size
4 cm long, 3 cm wide
- 2. A photograph of the applicant himself/herself only
- 3. The dimensions of the part excluding the edge satisfy each dimension of the screen shown on the left
(Face measurements are from the top of the head (including hair) to the tip of the chin)
- 4. Front facing without a hat
- 5. without background (including shadow)
- 6. One that is vivid
- 7. Photos taken within 6 months before submission
- 8. With name on the back

Suitable photo example

Items that meet all specified standards and can be easily identified

Examples of inappropriate photos

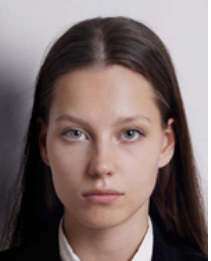

Items that do not meet the specified dimensions or standards

Off center

The face is turned sideways

There is a shadow in the background

Body is tilted

Partially obscured face

Eyeglass frames over the eyes

Very thick eyeglass frames

The light is reflected in the glasses

Part of the face is hidden by a mask

I can't see my eyes because of my bangs

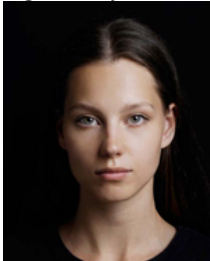

The face is covered with a cloth, creating a shadow

(Note) There is no problem even if the face is covered with a cloth, etc., as long as the face is clearly visible. In addition, if you cover your face with a cloth, etc. for religious or medical reasons, please submit a written statement (any form).

Items that are difficult to identify

Significantly different from normal facial expressions

The dark background makes it difficult to identify the outline

Unclear due to out-of-focus or camera shake

There is a shadow on the face

***In addition, it is inappropriate under any circumstances to change the image of the person by using image processing to make the eyes look bigger, whitening the face, correcting facial parts, moles, wrinkles, etc. Also, left-to-right flipped photos are inappropriate.**
